ABOUT KIANJAI HUGGAN:

Kianjai Huggan is a Computer Science and Engineering major who is passionate about diversifying STEM fields. She is a founder of the Sisters in STEM Conference, SPARK Program, STEM Hallows, BOSS LADi class, and Women in Making Conference. She celebrates "Maker Culture" in her position as a Maker Specialist at the Learning Community Innovation Zone. Her outreach continues in her role as President of Engineering Ambassadors. Her goal is to continue creating inclusive spaces where self-expression can thrive.

Kianjai is well-connected on social media. You can connect with Kia at kianjai.huggan@uconn.edu or on Instagram @kianjai_!

BLACK INNOVATORS 2020

I wanted to create a space to highlight Black Innovators to depict an internal struggle to establish identity. The phases of womanhood in the most organic form while repressing pain over many years. It explores the journey through a Black Lesbian Woman in the inner city. She is a best-selling author and poet. Her book "Unshackled" is a collection of poems. The book captures the harsh reality of being a Black creator with her own voice. Paris is a best-selling author and poet. Her book "Unshackled" is a collection of poems. The book captures the harsh reality of being a Black creator with her own voice. Paris is a best-selling author and poet. Her book "Unshackled" is a collection of poems. The book captures the harsh reality of being a Black creator with her own voice.

BLACK INNOVATORS 2020

Highlighting students excelling in their creative endeavors. Connect with these innovators who are entrepreneurs, artists, engineers, advocates, and more!}
